

# 10-10-10 GLOBAL WORK PARTY

## The Boston Latin School Youth Climate Action Network Garden

On 10/10/10, the Boston Latin School Youth Climate Action Network planted the first "Go Green, Grow Green Garden" in front of the school. The initial three raised beds are 8'L x 4'W x 17"H, constructed of "SmartTimbers" landscape timbers made of recycled resins. The beds are fitted with PVC hoops to accommodate greenhouse and overwintering film, extending the growing season through December and providing cold frames for starting plants in early spring. The entire plot is 44' x 14' and was constructed in the front yard at BLS, right along Avenue Louis Pasteur.

78 Avenue Luis Pasteur Boston, MA 02115 • 6176358895
